

CHRIS ANTON

American

*Before and after of the Robert E. Lee statue,
Richmond, VA*

2020

Chris Anton is the creator and photographer of AirVA, a drone photography collective documenting the state of Virginia. This aerial photo composite shows the aftermath of the protests following the police shooting of George Floyd. This photo portrays the decay of an idea--here, the legacy of the Confederacy and the role of the police--through the vibrancy of the protesters' graffiti.
